Old Dr. Jacob Townsend, THE ORIGINAL DISCOVERER OF THE Genuine Townsend Sarsaparilla. Old by. Townmend is now about 70 years of age, and has long been known as the AUTHOR and DISCOVERER of the GENUINEORIGHMAL TOWNSOND SARSAPARILLA." Beam poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. It had reaches the ears of many, nevertheless, as those persons who had been healed of some diseases, and saved from death, provinced the wonderful.

HEALING POWER.
This GRAND AND UNEQUALLED PREPARATION manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or descriptation.

Unlike young S. P. Townsend's, it improves with aga, and never changes but for the better; because it is prepared on scientific principles by a sensatific raum. The highest knowledge of Cleministry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. The Sarsaparilla root, it is well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and other, which if retained in preparing it for use, produce fermentation and acid, which is injurious to the system. Some of the properties o. Sarsaparilla are so relative that they entirely evaporate and are lost in the preparation. If they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these scialite principles, which fly off in vapor, or as an exhalation, under heat, are the very essential medical peoperties of the root, which give to it all its value.

Any person can boil or siew the "root till they get a dark colored flouid, which is more from, the coloring matter in the root than from anything else; they can then strain the inspind or vapid liquid, sweeten with sour molawes, and then call it "SARSAPARILLA EXTRACT or SYRUP."

But such is not the article known as the GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA.

SARSAPARILLA.

This is so prepared that all the inert properties of the Saraaparila root are first removed, everything capable of becoming acid or fermentation is extracted and rejected, then every particle of medical virtue is secured in a present concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most pewerful agent in the Cure of Insurumerable Diseases.

Hence the reason why we have commendations on every side in its favor by men, women, and children. We find it doing wonders in the cure of CONSUMPTION, DYSPEPSIA, and LIVER-COMPLAINT, and in RHEUMATISM, SCROPULA, PILES, COSTIVENESS, all CUTANE, OUS ERUPTIONS, PIMPLES, BLOTCHES and all affections arising from

IMPURITY OF THE BLOOD.

It possesses a marvelleus efficacy in all complaints as aing from Indigestion, from Acidity of the Stonach, from unequal circulation, determination of blood to the head palpitation of the heart, cold feet and hands, cold chills and lost flarkes over the body. It has not its equal in Colds and Cought; and promotose easy expectoration and gentle perspiration, relaxing strictures of the lungs, throat and overy other part.

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and states of FEMALE, COMPLA NYTS.

But in nontre is the excelence measures, see an acknowledged than in all kinds and scares of FEMALE COMPLAINTS.

It works wonders in cases of Pasar Albus or Waites. Falling of the Wanth, Obstructed, Suppressed, or Painful Meures, Irregularity of the measurual periods, and the like and is effectual in curing all the forms of Kindry Discusses. By removing obstructions, and regulating the general rystem, it gives tone and strength to the whole body, and thus cures all forms of Servous Discusses and Debitity, and thus prevents or relevee a great variety of other maidelies, as Spirad irritation, Neurolgies, St. Vitus Dance. Streoning, Epilepit: Fits Convulsions, etc.

It cleaness the blood, excites the liver to healthy action tones the stomach, and gives good digestion, relieves the bowels of topor and construction, allays inflammation, parifies the size, qualities the circulation of the blood, producing gents warmer smally all over the body and the meansible perspiration; release structures and directness, is
